

FOAM TAPE

Technical Data Sheet

MASKING POLYURETHANE FOAM TAPE WITH ADHESIVE BAND FOR BODY CAR OPENINGS

The mask allows masking foam seals the door, luggage, capes, etc. Preventing the paint is introduced into unwanted places. The foam allows for easy cutting to desired length and size and ensures a proper isolation, while the adhesive ensures a successful use not leave any residue once used.

Size: 13mmx50m and 19mmx35m

FOAM			
<i>RESULT</i>	<i>UNIT</i>	<i>NORM</i>	<i>SPECIFICATION</i>
Density	Kg/m ³	UNE-EN-ISO 845	28±2 29,30
Hardeness	KPa	UNE-EN-ISO 33861	4,5±0,5 4,08
Def. Remaining	%	UNE-EN-ISO 1586-A	<5 4,90
High Tensile	KPa	DIN 53571	>150 228
ADHESIVE			
Description	Adhesive thermo fusible- it melts with heat.		
Colour/base	Transparent / block polymer.		
Smell	Odourless at room temperature.		
PHISICAL CONSTANTS OF THE PRODUCT (VISCOSITY)			
<i>TEMPERATURE</i>		<i>VISCOSITY</i>	

180°C		8000±1000 mPas	
170°C		11000±1500 mPas	
CHEMICAL RESISTANCE (*)			
Excellent:	Water		
Good:	Acids and base	Fats and oil	D. Alcohols
Poor:	D. Aliphatic	D. Aromatics	

STORAGE

It is recommended to store the product at a temperature below 35°C in a normal ventilated place. Do not store product more than twelve months. Make a proper stock rotation for an optimal result.

USE

Strips of adhesive foam roll fuse 50 meters (10 strips of 5 meters).
Silicone paper coverage for a total use of the product. Presented in box-dispensed.
