

GREEN MASKING TAPE

WATERPROOF

Technical Data Sheet

TYPICAL APPLICATIONS

High Performance Masking Tape, suitable for 100°C oven baking.
Designed as outstanding quality masking tape.

CONSTRUCTION

Backing: Smooth, water resistant, green colour.
Adhesive: Based in highly crosslinked Natural rubber and hydrocarbon resins.

TENTATIVE PROPERTIES

Physical and performance characteristics shown in the next table are obtained from AFERA tests. They are only tentative for the first production lot. The Quality Assurance Dp. will edit the final Technical Product Specifications after three standard productions. Nevertheless, the user should determine whether the product is fit for a particular purpose.

Coating weight	35 g/sqm ²
Paper weight	67 g/sqm
Total thickness	150 µm
Peel Adhesion (*)	3 N/cm
Rolling B. Tack	40 mm
Shear 50°C	2,5 hours
Tensile Strength	45 N/cm
Elongation	7 %
