

## PRODUCT DESCRIPTION

### IS POLISH

#### Metal Surfaces

IS POLISH  
*immaculate surfaces*

**IS POLISH** is suitable for yacht and boat metal surfaces.

IS POLISH brings back the shine of boat metal elements. Formulated to be easy to use.

Neither the dirt, nor the dampness nor the saltpeter will stick to the brilliant treated surfaces with IS Polish, that brings Immaculate Surfaces.

Compatible with stainless steel, bronze, aluminium, brass and zamak.

#### Features:

- ✓ Specially developed for marine maintenance
- ✓ Bluish colour contributes to a more lasting sparkle effect.
- ✓ Smooth texture for an easy application.
- ✓ Citric fragrance for an agreeable application.
- ✓ Without contaminant solvents or silicone.
- ✓ User-friendly and easy to store
- ✓ Great performance only with a small quantity of product.
- ✓ Application choice: by hand or with polishing machine.

**Instructions for use:** Shake softly before use. Apply on the area to polish and perform with polishing machine at 1500-2000 rpm and lightly press with cotton or flannel disc to achieve the desired finish. Apply by hand on delicate surfaces and difficult areas.
